Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	ANIMAL RESCUE showcases spectacular rescues of all types of animals and focuses on the work of dedicated individuals who treat the various creatures of the animal kingdom. The program includes safety tips and real life in-the-field experiences of professional and ordinary people taking care of, treating and helping various animals. Animal Rescue delivers the kind of information and pro-social values that are of inestimable importance in shaping the growth and character of young people. All stories are authentic and contain actual video of rescues. This program is specifically designed to further the educational and informational needs of children and has educating and informing children as a significant purpose. However, we do not count this as core children's programming because during certain times of the year this show's time period is prone to more preemption that we are not able to reschedule than we think is appropriate for core children's programming.
