Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Riley and Todd, siblings who were raised in an orphanage after the death of their parents, long to be adopted. They find a comic book advertisement for "Replacement" parents for a \$1.98 fee and decide to send the money. They acquire an unorthodox pair of Replacement parents, Dick Daring, a former daredevil stuntman, and Agent K., a British super-spy. Neither seems to know much about parenting, although their intentions are good. Their attempts to forge a family and adjust to a new school are both touching and comedic. Stories revolve around issues such as cooperating with household/family rules, taking responsibility, fairness, building self-esteem, and trust. This program is on the station's main digital stream.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Thirteen-year-old Mylie Stewart, recently moved from Tennessee to Malibu, CA, leads a double life. By day she attends public high school, along with her older brother Jackson, but by night she is emerging pop star "Hannah Montana". Except for her family, only her two best friends, Oliver and Lilly, and her bodyguard know about Mylie's career as a singer, and she strives to maintain privacy, fearing that her new classmates would treat her very differently if they knew of her stage identity. Miley has ordinary teenage insecurities, but remains true to herself, despite the allure of concert life, the limos, parties, and glamorous clothes. Stories examine social issues such as peer pressure, integrity, family rules, jealousy, friendship, loyalty, and issues related to bereavement. This program is on the station's main digital stream.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	This is a teen-hosted program that profiles individuals and organizations committed to environmental issues, reports on the latest recycling and nature conservation efforts and advances in renewable energies and carbon footprint-reducing technology, and offers advice on how to be more eco-wise while performing daily activities. The show also includes "eco bytes"(bits of trivia related to environmental issues) and video footage uploaded by teen viewers to the show's website. This kid-friendly series uses peer reporting to address various environmental issues from a youthful point of view. By doing so, it enthusiastically encourages young adults to become more proactive about environmentalism rather than just talking about the importance of living green. It also stresses the positive impact that young people's efforts, no matter how small they might seem, can have on the larger world around them. This program originates on our sister station WMYA. WLOS broadcasts a simulcast of WMYA on one of its' digital channels.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	<p>"Noonbory and the Super 7!" uses fantasy and fun to promote school readiness in two essential ways. First, the series provides young viewers with an enticing model for ethical actions and effective coexistence. On an episode by episode basis, the Borys highlight instances in which helping, cooperation, and leadership lead to success; and other instances in which taking an untoward risk or telling a lie lead to problems and complications. By being given a delightful bird's-eye view of the community in which the Borys live, little kids gain new information and understanding about their own environment -- seeing how the Borys effectively function as citizens, and learning to do the same. The series also aids in school readiness in a second significant way. "Noonbory and the Super 7!" gives children an opportunity to discover and practice those primary discovery and "learning to learn" understandings and skills which form the groundwork of much further knowledge acquisition. Along with Noonbory, Lunabory, Jetybory, Pongdybory, Cozybory, Totobory, and Lukybory, children learn to ask appropriate questions, and engage in fact-finding, logical reasoning, analysis, and evaluation. "Noonbory and the Super 7's!" learning goals are especially vital in view of the series' target age demographic. During the preschool years, children are undergoing an important developmental shift. They are gradually evolving from being what Piaget termed "preoperational," and largely self-centered and insular; to becoming more fully functional "concrete operational" children who are able to productively interact with others in their environment. Kids are also going from perceiving only what is clearly visible and concrete to learning to effectively gather facts and solve more complex problems. "Noonbory and the Super 7!" facilitates this natural transition from insular to other directed and from concrete to thoughtful -- thereby easing kids' entry into school and the broader society. This program originates on our sister station WMYA. WLOS broadcasts a simulcast of WMYA on one of its' digital channels.</p>

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	This is a teen-hosted program that profiles individuals and organizations committed to environmental issues, reports on the latest recycling and nature conservation efforts and advances in renewable energies and carbon footprint-reducing technology, and offers advice on how to be more eco-wise while performing daily activities. The show also includes "eco bytes"(bits of trivia related to environmental issues) and video footage uploaded by teen viewers to the show's website. This kid-friendly series uses peer reporting to address various environmental issues from a youthful point of view. By doing so, it enthusiastically encourages young adults to become more proactive about environmentalism rather than just talking about the importance of living green. It also stresses the positive impact that young people's efforts, no matter how small they might seem, can have on the larger world around them. This program originates on our sister station WMYA. WLOS broadcasts a simulcast of WMYA on one of its' digital channels.
