Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	"Willa's Wild Life," based on the book An Octopus Followed Me Home, by Dan Yaccarino, is an animated series centered on a six-year-old girl and her menagerie of animals. Willa lives at home with her father and pets - an elephant, a giraffe, a pair of performing seals, a bear, penguins, and lots of rabbits. In each episode, Willa faces a challenge at home, in school or in her neighborhood. With her animals and best friend Dooley as key elements of her team, Willa works on solutions to overcome her challenge. Together they find ways to maintain healthy friendships, experience success, develop competence, and become altruistic. With help from her animal friends, Willa figures out how to earn the things she wants by helping others. She learns to appreciate the friends that she has rather than trying to change to fit in with the "cool" group. She realizes that asking questions is better than jumping to conclusions. Whether at school, home or in the neighborhood, Willa finds a way to analyze her situation and learn from experience.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	"Pearlie" is an animated comedy series based on the children's book series, Pearlle the Park Fairy by Wendy Harmer. Pearlle is an optimistic, light-hearted fairy who sees the good in everybody, but often gets into situations because her desire to help is larger than her capacity to deliver. Aimed for an audience within the 6-10 year-old range, episodes focus on the importance of following the rules, using good judgment and learning how to avoid getting into trouble. Since Pearlle was appointed by Fairy Head Quarters (HQ) to keep Jubilee Park in sparkling order, she has constant challenges with her basic goal of keeping everyone happy and making sure the park functions smoothly. Pearlle's nemesis and cousin, Saphira, often takes advantage of Pearlle's good nature which requires that Pearlle must also frequently outwit the park bully. In each episode, Pearlle approaches new tasks and problems with a great deal of enthusiasm, but without the organization required to get the job done. Through plot developments and with the assistance of her friends, Opal and Jasper, she learns what to do and what not to do in each situation so the park can be restored to order.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	<p>For young people today, new information is generally no more than a mouse-click away. Knowledge is readily there for the taking if kids simply know how to appropriately access it and effectively make use of it. In this context , many of the most useful and important things that youngsters can learn center on discovery, analysis and problem-solving --how do kids get the "right" information and make proper use of it. What questions could be asked? How does one assess veracity? How does one weigh alternatives? How are decisions best arrived at? How does one decide when aims can be accomplished independently, and if help is needed, how does one go about enlisting support? Above all, how can goals be achieved ethically and with regard to the greater good. In an enticing new world filled with excitement, mystery, and danger, "Magi Nation" addresses these vital learning goals. Tony, Edyn and Strag along with their human and decidedly non-human colleagues model their successful, and sometimes less than successful, attempts to analyze difficult situations, set appropriate goals, and creatively seek solutions to the dire dilemmas in which they find themselves. In the course of a series of intriguing codes, riddles and other puzzles that Tony Edyn and Strag are parmented with along the way, viewers are furthermore given the engaging opportunity to not only observe others go through the problem solving cycle, but to make use of their unique knowledge base and burgeoning problem solving skills to address conundrums on their own. The general learning goal and discrete educational objectives are fully integrated with the story-line, characters and settings that make up "Magi Nation." By focusing on the thrilling adventures of Tony, Edyn and Strag and the other forces for good in their battle with evil, the series provides young viewers with a non-threatening arena from which to observe and learn from the actions of others. Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	<p>Last year, the National Governors Association and Council of Chief State Officers released the Common Core State Standards Initiative, an attempt to set a national curriculum to bridge the standards gap between states. The content of On the Spot, a 30-minute E/I program for teens ages 13+, is based on the Common Core State Standards. The show uses an entertaining on-the-street format to test how well young people know the information contained in their own national curriculum. Then, On the Spot explains the answer to each question. The pedagogical approach of testing first and explaining the answer second has been shown to enhance retention and understanding. On the Spot challenges viewers to recall middle and high school knowledge about history, science, math, English, second languages, health, geography, art, music, and technology, and then teaches them the answer.
