Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	WILD AMERICA is targeted to children ages 13-16. The key educational objective of the program is to familiarize children with the animals of the North American content, their interaction with other animals and their environment. Throughout the series emphasis will be placed upon protecting endangered species and the impact that humans have while interacting in their environment. Each episode of the series will be specific to a particular animal. Topics will range from basic food gather, mating, natural enemies, relationships to other animals, and the interaction of the specific ecology on the survival of the species. We expect that children viewing the program will achieve a greater understanding of nature and specific animal species because of the up-close and detailed photography of the series. Through this understanding, it is hoped children will better relate to the natural environment as it exist in North American and learn to protect its natural species.

Origination	Network	
Days/Times Program Regularly Scheduled	Tuesday 8:00am	
Total times aired at regularly scheduled time	13	
Length of Program	30 mins	
Age of Target Child Audience from	13 years to 16 years	
Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Virus Attack is a series that depicts pollution as DNA infected by viruses, which are infecting a city with the sole purpose of destroying it. The three main characters, David, Alice, and George represent the anti-viruses who are trying to help. David has become the power to ward off the evil viruses. His father, Professor Amaldi, has devoted his life to finding a solution to the evil gene of wickedness. It is an interesting metaphor for pollution. The series shows elements of courage, friendship, and problem solving. Although the concept is far-fetched, it brings enough science concepts to make it plausible. This would be an excellent venue to discuss the issues of pollution in our modern world. Concepts of what is causing pollution and how students can help to solve some of these problems are the issues young people face today. They very often feel powerless and this show's characters give them great role models to try and problem solve the issues of pollution. There are no mixed messages in this series.
