Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Aqua Kids provides CORE programming in the area of biology and specifically the ecosystem related to the ocean, its tributaries and estuaries. Children can learn about the resources of the oceans and how protection of oceans is necessary to present and future generations. Not only does the show teach biological topics, but it aims to enrich children's lives by making them aware of future generations, the role they play now, and for generations into the future, with the biggest ecosystem on earth-the oceans. Each episode provides information related to a specific topic and gives an educational approach to understand the topic related to the entire ecosystem of the earth. Aqua Kids provides kids with a way to learn about the diversity of marine animals around the world and the importance of preserving their fragile aquatic habitats. Through the use of hands-on collaboration between kids and science researchers and educators, Aqua Kids encourages children to take an active role in protecting the future of their communities and the world.
