Digital Core
Programming

| Question | Response |
|---|----------|
| State the average number of hours of Core Programming per week broadcast by the station on its main program stream | 5.0 |
| State the average number of hours per week of free over-the-air digital video programming broadcast by the station on other than its main program stream | 0.0 |
| State the average number of hours per week of Core Programming broadcast by the station on other than its main program stream. See 47 C.F.R. Section 73.671: | 0.0 |
| Does the Licensee provide information identifying each Core Program aired on its station, including an indication of the target child audience, to publishers of program guides as required by 47 C.F.R. Section 73.673? | Yes |
| Does the Licensee certify that at least 50% of the Core Programming counted toward meeting the additional programming guideline (applied to free video programming aired on other than the main Yes No program stream) did not consist of program episodes that had already aired within the previous seven days either on the station's main program stream or on another of the station's free digital program streams? | Yes |

| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | <p>9th PERIOD is a weekly half-hour drama series for teens that teaches positive consequences of thought and action when combined with friendship's effective influences. This series is comprised of three friends who meet every day after school to discuss the day's events. Their exchanges are witty and on par with the subject matter of the social interaction that today's children experience. These three friends are more than friends, they are amateur sleuths. Each show presents a mystery that the children solve by the end of that show. Problem solving, working together toward a common goal, ethics, and morals are conveyed through the thoughts, words, and actions of these three characters: Peyton, Connor, and Meg. Every child will see him/herself in these characters. Peyton, Connor, and Meg share their daily trials and triumphs as they face the following together: bullies-both cyberspace and in your face- thievery, learning difficulties, family conflicts, adversity in and out of the classroom, homelessness, hidden agendas in places as small as the schoolyard to their favorite restaurant, and as large as the town itself. Children will see their worlds mirrored on the small screen. They will also observe alternative ways to handle stress, learning difficulties, and the variety of endless manners that the group mentality, when positively united, can spread good in the world. This program is specifically designed to further the educational and informational needs of children, has educating and informing children as a significant purpose, and otherwise meets the definition of Core Programming as specified in the Commission's rules.</p> |

| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | Curiosity Quest is an upbeat, family, educational program that explores what viewers are curious about. In each show, host Joel Greene, ventures on a quest to answer viewer's letters of curiosity. Each quest takes the audience on location for an unscripted, hands-on, educational exploration. In addition, throughout each program, Joel will hit the streets to get real and often comical answers to questions pertaining to each episode. Joel's enthusiastic personality often lands him in hilarious situations in pursuit of the answer. This program is specifically designed to further the educational and informational needs of children, has educating and informing children as a significant purpose, and otherwise meets the definition of Core Programming as specified in the Commission's rules. |
