Zoo Clues tackles the animal kingdom's most mind-blowing questions, like these: Can birds fly backwards? Are whales fish? Do dogs sweat? Questions and clues are presented, giving viewers a chance to guess the right answers. Our investigation of the answers takes viewers on a fast-paced and entertaining tour of the animal kingdom. The series will keep viewers engaged with the nearly infinite visual richness, animal characteristics, and wild range of animal behaviors. Beyond basic engagement, Zoo Clues will leave viewers with a meaningful perspective about animals and meaningful comparisons to their own human characteristics. The variety of the animal kingdom is truly odd and bizarre enough to read like fiction, but the clever narration of Zoo Clues links disparate information together in a way that always makes clear that what viewers see is real, natural, and relates to their own life in the real world. This may include information on any other noncore educational and informational programming that you aired this quarter or plan to air during the next quarter, or any existing or proposed non-broadcast efforts that will enhance the educational and informational value of such programming to children.
