Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Pajanimals are a group of four preschool aged puppets who live together in a house with their off screen mother and father. We meet them in the bedroom, a dormitory of sorts, where they show us their nighttime routine of brushing their teeth and having quiet conversation before falling off to sleep. The quiet time always turns into a discussion that results in a dream like adventure to solve a problem such as overcoming shyness, making a new friend or dealing with a bully. The adventure takes place in several nighttime dream locales where special friends help them work through the socio-emotional problem of the day. Specific approaches to managing the problem are demonstrated and practiced during the adventure and the children return home confident, getting ample rest for today and facing their issues tomorrow about Poppy Cat to her own cat named Poppy. She makes up a story that will be exciting and just follows her imagination to distant lands reached by boat, plane or train. Poppy Cat is the leader of his group of animal friends and the story always features an underlying message about being nice to yet ignoring the antics of the resident bully, a badger named Egbert. The lesson is always to think creatively and exercise your mind through reading because it will always lead to enjoyment and adventure.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Justin Time features a little boy, Justin, who wants very much to master his destiny, have great adventures and solve problems. He begins with a problem that vexes him and daydreams his way into an adventure that takes him to different places around the world, but also provides him with an experience that helps him solve his problem when he returns home. While on the adventure he is accompanied by Olive, a knowledgeable imaginary playmate and Squidgy the morphing flying sponge who provides commentary and comedy along the way. Justin's lessons involve learning, for example, that it takes focus to achieve success, failure can teach what we need to do to succeed next time or when one path to solve a problem doesn't work you can find another way to get to your goal. Justin is all about self directed learning from the young child's perspective and imagination.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Noodle and Doodle is an instructional series that features creating art projects and cooking projects around a specific theme. The show is hosted by Sean, who drives around in a double decker bus fully equipped with art supplies and a kitchen all ready for any assignment. The projects encourage parent engagement and often feature families working together to make something for display in the child's home. Sean is accompanied by Doggity, an ever faithful Beagle who transforms into an animated character during interstitial trips to a parallel universe and kitchen full of prank playing animated characters. While the show will be enjoyed by preschoolers, the projects are very practical and engaging to implement for children ages 5-8. The art projects typically feature lessons on recycling materials for re-use in making art and always demonstrate that creativity can transform something intended for one purpose into something useful to achieve a completely different goal.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	The Pajanimals are a group of four preschool aged puppets who live together in a house with their off screen mother and father. We meet them in the bedroom, a dormitory of sorts, where they show us their nighttime routine of brushing their teeth and having quiet conversation before falling off to sleep. The quiet time always turns into a discussion that results in a dream like adventure to solve a problem such as overcoming shyness, making a new friend or dealing with a bully. The adventure takes place in several nighttime dream locales where special friends help them work through the socio-emotional problem of the day. Specific approaches to managing the problem are demonstrated and practiced during the adventure and the children return home confident, getting ample rest for today and facing their issues tomorrow

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Justin Time features a little boy, Justin, who wants very much to master his destiny, have great adventures and solve problems. He begins with a problem that vexes him and daydreams his way into an adventure that takes him to different places around the world, but also provides him with an experience that helps him solve his problem when he returns home. While on the adventure he is accompanied by Olive, a knowledgeable imaginary playmate and Squidgy the morphing flying sponge who provides commentary and comedy along the way. Justin's lessons involve learning, for example, that it takes focus to achieve success, failure can teach what we need to do to succeed next time or when one path to solve a problem doesn't work you can find another way to get to your goal. Justin is all about self directed learning from the young child's perspective and imagination.

Origination Network

Days/Times Program Regularly Scheduled Saturday 12-12:30pm ET secondary tier only

Total times aired at regularly scheduled time 13

Length of Program 30 mins

Age of Target Child Audience from 6 years to 10 years

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.

Lazy Town promotes fitness and healthful habits for children of preschool and primary grades. It takes place in an imaginary setting, Lazy Town, and most episodes relate to children's eating and fitness habits to problem solving in their real world. The lead character, Stephanie, guides the audience through the story. She and her best friends, a group of human puppets reside in Lazy Town where her uncle is the Mayor Milford Meanswell. The underground spy and influencer who defines the ethos of Lazy Town is Robbie Rotten and he is determined to ruin the health and fitness practices of Stephanie and her friends. When the kids get into difficulties with Robbie Rotten, it is Sportacus, gymnast/athlete who comes to the rescue from his home in a spaceship that hovers over earth, prepared to answer to any call for help. The ever present theme of Lazy Town is to eat sports candy which consists of fruits and vegetables, get sufficient sleep and go outside and engage in a wide range of physical activities.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Make Way for Noddy is based on a recurring character in the Enid Blyton book series for very young readers. Noddy, a boy doll, lives in a little cottage in the village of Toyland. He tools around in his sporty convertible, delivers the mail, and is a friend to all. Because he is very kind to others, he invariably is asked to help solve problems. But because he doesn't know everything, he also has a lot to learn. In each episode Noddy actively finds a way to manage a project, soothe hurt feelings, settle arguments, or learn how to do something new by following directions. The examples in each episode are age appropriate challenges for children in the target audience and model clear and concrete solutions to problems.
