Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	The Real Winning Edge seeks to expose youth to other youth who have consistently made the behavioral choices that have helped them to have a greater sense of internal significance and acceptance, which results in a more self directed stable personality. They are more able to negotiate the "challenges" inherent in life. The youth who are chosen to be profiled on the series are chosen for their adoption of pro-social values and principles that have become the ethos of their behavior. Thus the characteristics demonstrated by the stories of these youth give rise to adherence to these sound choices that have given them "the real winning edge" in life, such as the following: discovering where their talents lie, and their pursuit of developing that "gift", developing and appreciation for honesty as a fundamental part of social responsibility to others. Youth interviews demonstrate a real sense of compassion and concern for other people no matter what the person's station in life might be. Developing a sense of self discipline by learning to balance school work with social activities, freinds and develeopiong their sense of mission and purpose in life. Developing a sense of internal acceptance that allows them to stand against activities that can hurt themselves as well as others, such as substance abuse, violence, promiscuous sex, etc. The Real Winning Edge promotes the values through these very engaging positive youth role models, who are introduced by celebrities in the same talent field as the youth. The celebrities reinforce the values by calling attention to these youths' qualities as they are exhibited in the program.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	On The Spot is a series tapping knowledge across a series of subject areas: geography, art, technology, science, math, history, language, music, and sports. It also addresses general cultural knowledge. The format is a series of seemingly random questions to individuals who are either of school age or adults past the age of high school graduation. There are three fundamental educational benefits to this format. First, it taps into fact retrieval in the curriculum. Second, and more important, it expands the information beyond fact retrieval. Third, and most important, it addresses what educators call non-cognitive factors for student success. These are factors that can measurably improve student achievement without specifically involving material to be tested. These include self-esteem and frames in which students see learning occurring. By removing information from the academic silos where it is generally taught and moving it, literally, to the mall, it forces a synthesis that is difficult to achieve in an academic setting. The fact that correct answers are given by diverse ethnicities and ages, by both genders, and not by stereotypes of smart people is essential. It means that anyone can own information. The fact that young people will see this on television in a non-academic setting is also very important. Whatever the curriculum or information, knowledge becomes the star-and is demonstrated by every type of person.

Include any other comments or information you want the Commission to consider in evaluating your compliance with the Children's Television Act (or use this space for supplemental explanations). This may include information on any other noncore educational and informational programming that you aired this quarter or plan to air during the next quarter, or any existing or proposed non-broadcast efforts that will enhance the educational and informational value of such programming to children. See 47 C.F.R. Section 73.671, NOTES 2 and 3.	Due to an error caused by a bad version of the program that we received from the program distributor, the MeTV Network educational program "Safari," which aired on Saturday, March 23, 2013 from 10:30- 11:00am Eastern/Pacific Time (9:30- 10:00am Central /Mountain Time) did not contain an "E/I" logo superimposition throughout the entire program. This program was identified by the Network as an "E/I" program to the suppliers of program guides, and it was also introduced by an announcement stating that the following program is an "E/I" program. In addition, the "E/I" logo did appear as a superimposition over the program for approximately the first five seconds at the start of each program segment. Due to an error, the logo did not continue to be superimposed thereafter. MeTV Network has informed us that this was an inadvertent error and actions have been taken to help ensure the error does not recur. In addition, this same program episode was aired in a rebroadcast on Saturday, March 30, 2013 from 11:00- 11:30am Eastern/Pacific Time (10:00- 10:30am Central/Mountain Time) in its established second home. This rebroadcast was publicized by announcements on MeTV Network, and the "E/I" logo was superimposed over the program for the entire program duration in this rebroadcast. Preemption noted on Program(s) #12 for March 23 in Question 10 was due to the episode running in its regularly scheduled time but the network did not send the program with the required E/I logo. Make goods were done as set out in the report.
