Include any other comments or information you want the Commission to consider in evaluating your compliance with the Children's Television Act (or use this space for supplemental explanations). This may include information on any other noncore educational and informational programming that you aired this quarter or plan to air during the next quarter, or any existing or proposed non-broadcast efforts that will enhance the educational and informational value of such programming to children. See 47 C.F.R. Section 73.671, NOTES 2 and 3.	The pre-emptions on December 20 were caused by a power outage and resultant loss of the satellite feed of the programming. The power and satellite feed were restored later that day. Because KVVN airs weather only on its multicast channel, it has elected to air all of its children's programming on its main programming stream in accordance with Section 73.671 of the Commission' rules. Its non-core programming qualifies as core programming in all respects except for the lack of the E/I bug on-screen throughout the programming, but this omission does not affect the educational value of the programming aired.
