Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Chica is a five year old "baby" chick who spends her days with her parents in their costume shop, the Coop. The shop's one employee, Kelly, doubles as Chica's nanny and the ensemble is rounded out with Bunji, a large floppy eared rabbit and Stitches, a straw mannequin that sits in the window. Chica's parents were formerly entertainers in the vaudeville tradition and they regale the audience with stories and songs from their theatrical past. They enjoy and indulge Chica, who sometimes acts younger than her age and gets into all kinds of predicaments. Kelly uses fantasy play to transform herself, Chica, Bunji and Stitches into animated characters in another universe, who are struggling with a problem similar to the one Chica experienced in the Coop. Without fail, they find the problem can be solved and they carry that knowledge back to the Coop to use on another day.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Make Way for Noddy is based on a recurring character in the Enid Blyton book series for very young readers. Noddy, a boy doll, lives in a little cottage in the village of Toyland. He tools around in his sporty convertible, delivers the mail, and is a friend to all. Noddy is surrounded by a large cast of other toy characters some of whom are mentors, and a few other who are mischief makers in Toyland. In every episode of Noddy, there is a challenge experienced by noddy or someone else in Toyland that lends itself to a humorous and lighthearted resolution. Whether it's Martha the monkey getting her undoing for her selfish ways, Mr. Wobblyman learning to play soccer with no legs, or Noddy trying to assemble a kite, the characters in Toyland work out their issues and live together in harmony.

Age of Target Child Audience from	2 years to 5 years
Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Chica is a five year old "baby" chick who spends her days with her parents in their costume shop, the Coop. The shop's one employee, Kelly, doubles as Chica's nanny and the ensemble is rounded out with Bunji, a large floppy eared rabbit and Stitches, a straw mannequin that sits in the window. Chica's parents were formerly entertainers in the vaudeville tradition and they regale the audience with stories and songs from their theatrical past. They enjoy and indulge Chica, who sometimes acts younger than her age and gets into all kinds of predicaments. Kelly uses fantasy play to transform herself, Chica, Bunji and Stitches into animated characters in another universe, who are struggling with a problem similar to the one Chica experienced in the Coop. Without fail, they find the problem can be solved and they carry that knowledge back to the Coop to use on another day.
