Digital Core
Programming

| Question | Response |
|---|----------|
| State the average number of hours of Core Programming per week broadcast by the station on its main program stream | 3.0 |
| State the average number of hours per week of free over-the-air digital video programming broadcast by the station on other than its main program stream | 336.0 |
| State the average number of hours per week of Core Programming broadcast by the station on other than its main program stream. See 47 C.F.R. Section 73.671: | 68.0 |
| Does the Licensee provide information identifying each Core Program aired on its station, including an indication of the target child audience, to publishers of program guides as required by 47 C.F.R. Section 73.673? | Yes |
| Does the Licensee certify that at least 50% of the Core Programming counted toward meeting the additional programming guideline (applied to free video programming aired on other than the main Yes No program stream) did not consist of program episodes that had already aired within the previous seven days either on the station's main program stream or on another of the station's free digital program streams? | Yes |

| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | Turbo Dogs is an animated show based on the books, Racer Dogs, by Bob Kolar. The series follows a group of six dogs from Racerville who love to compete with one another in races. In each story, one or more of the dogs encounter and solve problems that teach them social-emotional lessons on good sportsmanship, teamwork, cooperation, playing fair, and friendship. The show also imparts information on the mechanics of racing such as directionality and concepts of distance and time. The social-emotional messages are embedded through the stories using action and humor. The tags at the end of each episode reiterate and establish the educational message learned by the dogs. |

| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | Pearlie recounts the weekly escapades of an optimistic, amiable fairy who has been appointed by Fairy HQ to maintain order in Jubilee Park. She lives among a dozen assorted characters. While Pearlie is very likable, she is a bit of a busy body who likes to arrange things according to over ambitious plans that ultimately get her in trouble. She gets along with everyone so ultimately every problem is solved and Pearlie learns a lesson. Learning is a constant process for Pearlie because she has big responsibilities, but she is determined and ends up preserving order and happiness in Jubilee Park. |

| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | Willa is a new animated series centered on a six year old girl, and her menagerie of animals. Willa lives at home with her father and pets; an elephant, a giraffe, a pair of performing seals, a bear, penguins, and lots of rabbits. In each episode, Willa faces a challenge at home, in school or in her neighborhood. With her animals and best friend Dooley as key elements of her team, Willa works on solutions to overcome her challenge. Together they find ways to maintain healthy friendships, experience success, develop competence and become altruistic. With help from her animal friends, Willa figures out how to earn the things she wants to help others. She learns to appreciate the friends that she has rather than trying to change to fit in with the cool group. She realized that asking questions is better than jumping to conclusions. Whether at school, home or in the neighborhood, Willa finds a way to analyze her situation and learn from experience. |

| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | Shelldon is an animated series that takes place in Shell Land, a mythical undersea world populated by characters from a wide array of water dwelling species. The main character, Shelldon, is an orphaned yoka shell mollusk adopted by the Clam family and living with them in the family owned Charming Clam Inn. Dr. Shell, an elder and venerated inventor, and Connie, a cowry shell classmate of Shelldon's also live with him at the inn. Shelldon and his buddies Herman, (a Hermit crab) and Connie always work together and solve problems that they face in school or in the community. A recurring problem is to staunch the plans of the local millionaire, Cecil Cracken, whose greed puts making money over protecting the environment. Dr. Shell is typically the children's key provider of knowledge and other resources. In each episode, the children learn a significant social emotional lesson and also share information relating to their ocean habitat and environmental protection. |

| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | Based on the books by Laurent de Brunhoff, Babar is an animated show about a young orphaned elephant who finds the strength to rise above the challenges he faces as he journeys through life. Each episode of the show develops a social emotional message such as taking responsibility, being patient and persistent in hard work, respecting people's privacy, learning to cope with unforeseen changes, and being honest. These messages emerge from the need to resolve a dilemma that is faced by Babar, one of his friends or family members. |

| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | Set in medieval times, Jane and the Dragon is an animated show based on Martin Baynton's best selling book about a middle class medieval girl named Jane. Jane is raised in the Royal Court as a Knight in Training after she demonstrates her courage by leaving the castle to conquer the local dragon. The giant green Dragon, whose sense of humor exceeds his ferocity, instead becomes Janes' best friend and part of the castle community. In each episode, Jane encounters a challenge that tests her problem solving skills and requires her to demonstrate her strength of character as a Knight of the King's Guard. Sometimes Jane learns a moral lesson, and other times she uses her analytical ability to illustrate how a problem can be made less complicated and easily solved. |

| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | Zula's comprehensive program addresses the national call for science literacy education among the very audience for whom research demonstrates that early intervention is most effective. By reaching pre-kindergarten and early elementary students, Zula can provide a critical foundation in understanding science concepts and content. The television program provides science education and character building lessons in an entertaining format thru characters that travel in space. The Zula Patrol's developers have designed an integrated approach, teaching science through engaging stories with humor, character building social lessons, and supporting materials. The entire Zula package serves many aspects of learning, promotes literacy, and provides a diverse approach to learning styles. |

| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | Inspired by Children's everyday life, Dragon is an animated show based on the book series of the same name by author and illustrator, Dave Pilkey. The show follows a little blue dragon as he faces everyday issues. Using a simple and direct approach to life, Dragon learns new information and develops new skills primarily through trial and error. Dragon is friendly and helpful, but he tends to see things from a unique perspective and sometimes that leads to trouble. As each story unfolds, the audience learns to see things in different ways, much like Dragon, and they learn how to problem solve through ordinary challenges. Dragon shows how to take care of a pet, make new friends, or how to find the right hobby. |

| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | Set in medieval times, Jane and the Dragon is an animated show based on Martin Baynton's best selling book about a middle class medieval girl named Jane. Jane is raised in the Royal Court as a Knight in Training after she demonstrates her courage by leaving the castle to conquer the local dragon. The giant green Dragon, whose sense of humor exceeds his ferocity, instead becomes Janes' best friend and part of the castle community. In each episode, Jane encounters a challenge that tests her problem solving skills and requires her to demonstrate her strength of character as a Knight of the King's Guard. Sometimes Jane learns a moral lesson, and other times she uses her analytical ability to illustrate how a problem can be made less complicated and easily solved. |

| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | Willa is an animated series centered on a six year old girl, and her menagerie of animals. Willa lives at home with her father and pets; an elephant, a giraffe, a pair of performing seals, a bear, penguins, and lots of rabbits. In each episode, Willa faces a challenge at home, in school or in her neighborhood. With her animals and best friend Dooley as key elements of her team, Willa works on solutions to overcome her challenge. Together they find ways to maintain healthy friendships, experience success, develop competence and become altruistic. With help from her animal friends, Willa figures out how to earn the things she wants to help others. She learns to appreciate the friends that she has rather than trying to change to fit in with the cool group. She realized that asking questions is better than jumping to conclusions. Whether at school, home or in the neighborhood, Willa finds a way to analyze her situation and learn from experience. |

| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | Shelldon is an animated series that takes place in Shell Land, a mythical undersea world populated by characters from a wide array of water dwelling species. The main character, Shelldon, is an orphaned yoka shell mollusk adopted by the Clam family and living with them in the family owned Charming Clam Inn. Dr. Shell, an elder and venerated inventor, and Connie, a cowry shell classmate of Shelldon's also live with him at the inn. Shelldon and his buddies Herman, (a Hermit crab) and Connie always work together and solve problems that they face in school or in the community. A recurring problem is to staunch the plans of the local millionaire, Cecil Cracken, whose greed puts making money over protecting the environment. Dr. Shell is typically the children's key provider of knowledge and other resources. In each episode, the children learn a significant social emotional lesson and also share information relating to their ocean habitat and environmental protection. |

| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | Inspired by Children's everyday life, Dragon is an animated show based on the book series of the same name by author and illustrator, Dave Pilkey. The show follows a little blue dragon as he faces everyay issues. Using a simple and direct approach to life, Dragon learns new information and develops new skills primarily through trial and error. Dragon is friendly and helpful, but he tends to see things from a unique perspective and someties that leads to trouble. As each story unfolds, the audience learns to see things in different ways, much like Dragon, and they learn how to problem solve through ordinary challenges. Dragon shows how to take care of a pet, make new friends, or how to find the right hobby. |

| Total times aired at regularly scheduled time | 52 |
| Length of Program | 30 mins |
| Age of Target Child Audience from | 4 years to 8 years |
| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | Set in medieval times, Jane and the Dragon is an animated show based on Martin Baynton's best selling book about a middle class medieval girl named Jane. Jane is raised in the Royal Court as a Knight in Training after she demonstrates her courage by leaving the castle to conquer the local dragon. The giant green Dragon, whose sense of humor exceeds his ferocity, instead becomes Janes' best friend and part of the castle community. In each episode, Jane encounters a challenge that tests her problem solving skills and requires her to demonstrate her strength of character as a Knight of the King's Guard. Sometimes Jane learns a moral lesson, and other times she uses her analytical ability to illustrate how a problem can be made less complicated and easily solved. |

| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | Zula's comprehensive program addresses the national call for science literacy education among the very audience for whom research demonstrates that early intervention is most effective. By reaching pre-kindergarten and early elementary students, Zula can provide a critical foundation in understanding science concepts and content. The television program provides science education and character building lessons in an entertaining format thru characters that travel in space. The Zula Patrol's developers have designed an integrated approach, teaching science through engaging stories with humor, character building social lessons, and supporting materials. The entire Zula package serves many aspects of learning, promotes literacy, and provides a diverse approach to learning styles. |
