Is an instructional series that features creating art projects and cooking projects around a specific theme. The show is hosted by Sean, who drives around in a double-decker bus fully equipped with art supplies and a kitchen, all ready for any assignment. The projects encourage parent engagement and often feature families working together to make something for display in the child's home. Sean is accompanied by Doggity, and every-faithful Beagle dog, who transforms into an animated character during interstitial trips to a parallel universe and kitchen full of prank playing animated characters. The art projects typically feature lessons on recycling materials for-re-use in making art and always demonstrate that creativity can transform something intended for one purpose into something useful to achieve a completely different goal.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	features and little boy, Justin, who wants very much to master his destiny, have great adventures, and solve problems. He begins with a problem that vexes him and daydreams his way into an adventure that takes him to different places around the world, but also provides him with an experience that helps him solve his problem when he returns home. While on the adventure he is accompanied by Olive, a knowledgeable imaginary playmate, and Squidgy the morphing flying sponge, who provides commentary and comedy along the way. Justin's lessons involved learning, for example, that it takes focus to achieve success, failure can teach what we need to do to succeed next time, or when one path to solve a problem doesn't work, you can find another way to get to your goal. Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	This series promotes fitness and healthful habits for preschool children. It takes place in an imaginary setting, Lazy Town, and most episodes relate children's eating and fitness habits to problem solving in their "real world." The lead character, Stephanie, guides the audience through the story. She and her best friends, a group of "human" puppets reside in Lazy Town, where her uncle is the Mayor Milford Meanswell. The underground spy and influencer who defines the ethos of Lazy Town is Robbie Rotten, and he is determined to ruin the health and fitness practices of Stephanie and her friends. When the kids get into difficulties with Robbie Rotten, it is Sportacus, gymnast/athlete who comes to the rescue from his home in a spaceship that hovers over earth, prepared to answer to any call for help. The ever-present theme of Lazy Town is to eat "sports candy" which consists of fruits and vegetables, get sufficient sleep, and go outside and engage in a wide range of physical activities, from playing games, holding athletic competitions, to building forts and play structures.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	It is during the adolescent years that career exploration, planning, education, and decision-making begins. There is no question that a career in one of the multimedia industries is among the most popular career choices of adolescents. Although many feel their calling is for a more obvious "on-camera" career in acting, there are also a number of "behind the screen" pursuit that make for fulfilling career choices. Made in Hollywood: Teen Edition (MIH:TE) was created by Connection III Entertainment Corp. to provide career information and advice from top Hollywood professionals to 13-16 year old viewers so they can "explore and learn about the technical, artistic, creative, business, and administrative careers that are a part of the motion picture, television, music video, and home entertainment industries" (Berry & O'Neal, 2006,p.1). Since pearlle was appointed by fairy Head Quarters (HQ) to keep Jubilee park in sparkling order she has constant challenges with her basic goal of keeping everyone happy and making sure the park functions smoothly. Pearlle's nemesis and cousin Saphira, often takes advantage of Pearlle's good nature which requires that Pearlle must also frequently outwit the park bully. It is during the adolescent years that career exploration, planning, education, and decision-making begins. There is no question that a career in one of the multimedia industries is among the most popular career choices of adolescents. Although many feel their calling is for a more obvious "on-camera" career in acting, there are also a number of "behind the screen" pursuit that make for fulfilling career choices. Made in Hollywood: Teen Edition (MIH:TE) was created by Connection III Entertainment Corp. to provide career information and advice from top Hollywood professionals to 13-16 year old viewers so they can "explore and learn about the technical, artistic, creative, business, and administrative careers that are a part of the motion picture, television, music video, and home entertainment industries" (Berry & O'Neal, 2006,p.1). To guide the production of MIH:TE, berry (2006) developed a career and guidance model that offers a framework for the development of each episode.
