Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Chica is a five-year-old chick who spends her days with her parents in their costume shop, the Coop. The shop's one employee, Kelly, doubles as Chica's nanny and the ensemble is rounded out with Bunji, a large floppy eared rabbit and Stitches, a straw mannequin that sits in the window. Chica's parents were formerly entertainers in the vaudeville tradition and they regale the audience with stories and songs from their theatrical past. They enjoy and indulge Chica, who sometimes acts younger than her age and gets into all kinds of predicaments. Kelly uses fantasy play to transform herself, Chica, Bunji and Stitches into animated characters in another universe, who are struggling with a problem similar to the one Chica experienced in the Coop. Without fail, they find the problem can be solved and they carry that knowledge back to the Coop to use on another day.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Animal Atlas is an entertaining and educational half-hour program that explores the world of animal wildlife, promoting a better understanding of how various animal species live and what they need to survive. With an entertaining narrative, the series combines focused examinations of certain topics such as Animal Appetites (which explores the various diets of animals along with information about how animals catch and eat their food, how diets determine their lifestyle, etc.), Animal Antics, (a hilarious look at the crazy physical antics and talents of certain species), Animal Babies (an intimate look at babies of various species, how they are born, how they are raised and the difficulties and delights of growing up), along with shows which focus solely on certain animals such as elephants, bears, and monkeys. In these shows a thorough and entertaining exploration of the specific animal takes the viewer into the world of that animal as we see where it lives, how it eats, how it plays, how the family unit operates, and what threatens and supports its survival. Animal Atlas also promotes responsibility toward wildlife issues by educating the viewer about endangered species and wildlife habits, as well as informing viewers how to support wildlife conservation.

Program Title	Now Eat This! with Rocco Dispirito-KHNL Main Digital
Origination	Syndicated
Days/Times Program Regularly Scheduled	Sunday, 7:30am
Total times aired at regularly scheduled time	13
Length of Program	30 mins
Age of Target Child Audience from	13 years to 16 years

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Now Eat This! With Rocco Dispirito is a different version of a cooking show-different in that the emphasis is on families and changing a family's behavior and cooking culture with the goal of making the family's kids healthier. Families with children or families who want to change their caloric intake habits with the result of greater over all health are well served to watch the program. There are plenty of numbers and nutritional facts to accompany each family's nutritional makeover and the appeal to the 13-16 year-old audience lies in the immediate nature of food and the drive of curiosity to be smarter and better informed (especially to be the smartest in the family at meal times). The data on nutrition, including fat, carbohydrates, and calories, are presented hand drawn on an old-school slate and blackboard-a original and less intimidating way to present facts to an audience. The facts are reinforced by large graphics, which come in as alerts. This style of information matches the gentle but firm personality of host Rocco Dispirito who prods families in the gentlest of ways-reminding families consistently that children are an asset as well as a responsibility when it comes to food preparation. A nice touch is that the camera spends time in the home of the families in each episode instead of just bringing the family to the kitchen set. For engagement of a young audience and for the goal of behavior modification, this is an excellent approach. A young audience likes peers in their programs and the presence of high school age children gives it cache for middle school viewers. The climax of each program is nicely built to feature children as the ultimate judges--watching the children eat and evaluate familiar dishes prepared in a healthier way. Children don't filter in the kitchen! There are not the usual structural elements to help a young audience retain and reflect on information-quizzes, repetition and reinforcement, and chance for independent thinking. But the hook of food and gratification are dependable ways to hold the middle and high school audience-a strategy that advertisers have used for years. Now Eat This! is a healthier and more educational use of that strategy.
