Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	An animal series with a uniquely scientific approach. While most animal shows look at the behavior of animals, Xploration Animal Science goes one step further to look at how and why an animal is able to excel in its environment. This series uses animation, graphics, and scientific analysis from animal experts to give viewers more understanding than ever before of these amazing creatures. Produced specifically for the 13-16 demographic, this is a series that all animal lovers will watch and learn from. The program is regularly scheduled and airs between the hours of 7:00am and 10:00pm. The program is 30 minutes in length and is close-captioned and E/I inscribed. It is identified as an educational and informational show targeted to 13 to 16 year olds in listings provided to publishers of program guides.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Each week our host Emily Calandrelli will take viewers on incredible journeys through space that will both entertain and educate. Ever wonder what it would be like to live in space or on a different planet? Watch our host try to perform every day responsibilities while floating in zero gravity. Explore the challenges that come along with living on a different planet as our host lives like an astronaut in a Mars-like habitat. This new half-hour weekly series produced for the 13-16 target audience will certainly attract viewers of all ages. We will have episodes on space robotics, commercial space tourism, asteroids, and our search for life, among many others. When appropriate, the host will highlight NASA related programs and internships for young students that are relevant to the content we have shown. The program is regularly scheduled and airs between the hours of 7:00am and 10:00pm. The program is 30 minutes in length and is close-captioned and E/I inscribed.
