Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	A significant purpose and key educational objective of this program is to present animals, birds, and insects in their natural environments in order to engage the curiosity and developing intelligence of boys and girls. There is a special emphasis on nature, science, the adaptation and survival of species, and the role of species in human planetary welfare. Each episode examines topics of geography, ecology, and the ways in which non-humans, animals, birds, and insects adjust to the complexities of their specific habitats in the various continents and oceans that make up our planet. Using original footage, music, and humor, this series presents information about where animals live, how they build their unique dwellings, the tools they use for foraging, the migrations of animals due to climatic changes, and how they care for and protect their offspring. The main purpose of the series is to educate and inform young children about a variety of species and about how animals and humans are interdependent.
