Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	The Real Winning Edge seeks to expose youth to other youth who have consistently made the behavioral choices that have helped them to have a greater sense of internal significance and acceptance, which results in a more self directed stable personality. They are more able to negotiate the "challenges" inherent in life. The youth who are chosen to be profiled on the series are chosen for their adoption of pro-social values and principles that have become the ethos of their behavior. Thus the characteristics demonstrated by the stories of these youth give rise to adherence to these sound choices that have given them "the real winning edge" in life, such as the following: discovering where their talents lie, and their pursuit of developing that "gift", developing an appreciation for honesty as a fundamental part of social responsibility to others. Youth interviews demonstrate a real sense of compassion and concern for other people no matter what the person's station in life might be. Developing a sense of self discipline by learning to balance school work with social activities, friends and developing their sense of mission and purpose in life. Developing a sense of internal acceptance that allows them to stand against activities that can hurt themselves as well as others, such as substance abuse, violence, promiscuous sex, etc. The Real Winning Edge promotes the values through these very engaging positive youth role models, who are introduced by celebrities in the same talent field as the youth. The celebrities reinforce the values by calling attention to these youths' qualities as they are exhibited in the program.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	On The Spot is a series tapping knowledge across a series of subject areas: geography, art, technology, science, math, history, language, music, and sports. It also addresses general cultural knowledge. The format is a series of seemingly random questions to individuals who are either of school age or adults past the age of high school graduation. There are three fundamental educational benefits to this format. First, it taps into fact retrieval in the curriculum. Second, and more important, it expands the information beyond fact retrieval. Third, and most important, it addresses what educators call non-cognitive factors for student success. These are factors that can measurably improve student achievement without specifically involving material to be tested. These include self-esteem and frames in which students see learning occurring. By removing information from the academic silos where it is generally taught and moving it, literally, to the mall, it forces a synthesis that is difficult to achieve in an academic setting. The fact that correct answers are giving by diverse ethnicities and ages, by both genders, and not by stereotypes of smart people' is essential. It means that anyone can own information. The fact that young people will see this on television in a non-academic setting is also very important. Whatever the curriculum or information, knowledge becomes the star-and is demonstrated by every type of person.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Edgemont High is a television series originally produced by Canada's public broadcaster, CBC, for teenage viewers. Each 30-minute episode portrays the everyday lives of students of the AC McKinley Secondary School in the fictitious suburban town of Edgemont. The series is designed to entertain its youth audience and also to inform and educate these viewers about issues that arise in school and at home. Storylines focus on the social and emotional challenges that every secondary school student faces, from forming and maintaining friendships and romantic attachments, to ethical and moral choices and family relationships. The programs illustrate the possible consequences of choices that these viewers may face, and these outcomes provide life lessons that are shown plainly to the teen audience. Edgemont further benefits its viewers by opening dialogue with peers and potentially also parents and educators regarding the topics portrayed in the series.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Utilizing humor as a powerful learning tool, GSA sparks enthusiasm for writing through age appropriate sketch comedy, original songs, puppetry, and story theatre. By basing the stories on the writing of elementary school students, ages 7 -13, children get the message that their words have power, and that their voices are being heard. GSA provides something that educators can't necessarily offer or replicate in a school setting, as it gives students a real world connection to their writing. Young students have the opportunity to understand the impact of writing on a broader audience by submitting their own writing to the show for consideration and adaptation. Green Screen's company of performers and writers reinforces critical writing skills and emphasizes positive social messages in addition to academics kills, GSA focuses on the five Cs: Creativity, Curiosity, Confidence, Citizenship, Compassion.
