Produced primarily for the 13-16 target audience, "Xploration Awesome Planet" will inspire and educate anyone interested in earth sciences. Our host, Philippe Cousteau, the grandson of legendary Jacques Cousteau, brings boundless energy to every location we visit. From magnificent mountains to violent volcanoes, this program takes an in-depth look at the unique and distinct features on planet Earth. We not only visit gigantic glaciers and behold their beauty but also discover why they formed, and how they shaped our landscape. Geological experts share their wisdom with Philippe, as we strive to understand places on the earth, inside the earth, and above the earth. The program is regularly scheduled and airs between the hours of 7:00 am and 10:00 pm. The program is 30 minutes in length and is identified as an educational and informational show, targeted to teens (13 to 16 year olds), at the beginning and throughout each broadcast and in listings provided to publishers of program guides. |

| Describe the<br>educational<br>and<br>informational<br>objective of<br>the program<br>and how it<br>meets the<br>definition of<br>Core<br>Programming. | "Xploration Outer Space" is a half-hour weekly E/I series produced with the intention of increasing and expanding our target audience's interest in the field of STEM education. This new half-hour weekly series produced for the 13-16 target audience will certainly attract viewers of all ages. Each week, our host Emily Calandrelli will take viewers on incredible journeys through space that will both entertain and educate. Ever wonder what it would be like to live in space or on a different planet? Watch our host try to perform everyday responsibilities while floating in zero gravity. Explore the challenges that come along with living on a different planet as our host lives like an astronaut in a Mars-like habitat. We will have episodes on space robotics, commercial space tourism, asteroids, and our search for life, among many others. When appropriate, the host will highlight NASA-related programs and internships for young students that are relevant to the content we have shown. The program is regularly scheduled and airs between the hours of 7: 00 am and 10:00 pm. The program is 30 minutes in length and is identified as an educational and informational show, targeted to teens (13 to 16 year olds), at the beginning and throughout each broadcast and in listings provided to publishers of program guides. |

| Describe the<br>educational<br>and<br>informational<br>objective of<br>the program<br>and how it<br>meets the<br>definition of<br>Core<br>Programming. | "Xploration Animal Science" is a half-hour weekly E/I series produced with the intention of increasing and expanding our target audience's interest in the field of STEM education. Produced specifically for the 13-16 demographic, this is an animal series with a uniquely scientific approach. While most animal shows look at the behavior of animals, "Xploration Animal Science" goes one step further to look at how and why an animal is able to excel in its environment. This series uses animation, graphics, and scientific analysis from animal experts to give viewers more understanding than ever before of these amazing creatures. This is a program that all animal lovers will watch and learn from. The program is regularly scheduled and airs between the hours of 7:00 am and 10:00 pm. The program is 30 minutes in length and is identified as an educational and informational show, targeted to teens (13 to 16 year olds), at the beginning and throughou each broadcast and in listings provided to publishers of program guides. |

| Describe the<br>educational<br>and<br>informational<br>objective of<br>the program<br>and how it<br>meets the<br>definition of<br>Core<br>Programming. | "Teen Kids News" meets FCC requirements for "core children's programming" by producing each week educational features, such as "College and You" (tips for choosing and getting into college) and "Word" (vocabulary skills training), as well as informational features for teens, such as reports about healthy eating driving tips for new drivers, and internet predators. The show has been designed to meet needs of children and young adolescents with a unique curiosity about their world with weekly headlines that present the news in a teen appropriate manner. The program stimulates the 13-16 year olds' curiosity, develops their learning and cognitive skills, listening and thinking skills, and serves as an enhancement of their academic and educational experience. The program is regularly scheduled and airs between the hours of 7:00 am an 10:00 pm. The program is 30 minutes in length and is identified as an educational and informational show, targeted to teens (13 to 16 year olds), at the beginning and throughout each broadcast and in listings provided to publishers of program guides. |

Describe the educational and informational objective of the program and how it meets the definition of Core Programming. "Teen Kids News" meets FCC requirements for "core children's programming" by producing each week educational features, such as "College and You"(tips for choosing and getting into college) and "Word" (vocabulary skills training), as well as informational features for teens, such as reports about healthy eating, driving tips for new drivers, and internet predators. The show has been designed to meet needs of children and young adolescents with a unique curiosity about their world with weekly headlines that present the news in a teen appropriate manner. The program stimulates the 13-16 year olds' curiosity, develops their learning and cognitive skills, listening and thinking skills, and serves as an enhancement of their academic and educational experience. The program will be regularly scheduled and air between the hours of 7:00 am and 10:00 pm. The program is 30 minutes in length and will be identified as an educational and informational show, targeted to teens (13 to 16 year olds), at the beginning and throughout each broadcast and in listings provided to publishers of program guides.
