FEDERAL COMMUNICATIONS COMMISSION

FM BROADCAST STATION CONSTRUCTION PERMIT

Authorizing Official:

Official Mailing Address:

SALEM COMMUNICATIONS HOLDING CORPORATION
4880 SANTA ROSA ROAD
CAMARILLO CA 93012

James D. Bradshaw
Deputy Chief
Audio Division
Media Bureau

Facility ID: 170949

Call Sign: WLTE

Permit File Number: BMPH-20081224AAT

Grant Date: March 26, 2009

The authority granted herein has no effect on the expiration date of the underlying construction permit.

This permit modifies permit no.: BNPH-20070430CDB

Subject to the provisions of the Communications Act of 1934, as amended, subsequent acts and treaties, and all regulations heretofore or hereafter made by this Commission, and further subject to the conditions set forth in this permit, the permittee is hereby authorized to construct the radio transmitting apparatus herein described. Installation and adjustment of equipment not specifically set forth herein shall be in accordance with representations contained in the permittee's application for construction permit except for such modifications as are presently permitted, without application, by the Commission's Rules.

Commission rules which became effective on February 16, 1999, have a bearing on this construction permit. See Report & Order, Streamlining of Mass Media Applications, MM Docket No. 98-43, 13 FCC RCD 23056, Para. 77-90 (November 25, 1998); 63 Fed. Reg. 70039 (December 18, 1998). Pursuant to these rules, this construction permit will be subject to automatic forfeiture unless construction is complete and an application for license to cover is filed prior to expiration. See Section 73.3598.

Equipment and program tests shall be conducted only pursuant to Sections 73.1610 and 73.1620 of the Commission's Rules.

Callsign: WLTE Permit No.: BMPH-20081224AAT

Name of Permittee: SALEM COMMUNICATIONS HOLDING CORPORATION

Station Location: SC-PENDLETON

Frequency (MHz): 95.9

Channel: 240

Class: A

Hours of Operation: Unlimited

Transmitter: Type Accepted. See Sections 73.1660, 73.1665 and 73.1670 of the Commission's Rules.

Transmitter output power: As required to achieve authorized ERP.

Antenna type: Non-Directional

Antenna Coordinates: North Latitude: 34 deg 42 min 33 sec

West Longitude: 82 deg 55 min 29 sec

	Horizontally Polarized Antenna	Vertically Polarized Antenna
Effective radiated power in the Horizontal Plane (kW):	4.5	4.5
Height of radiation center above ground (Meters):	88	88
Height of radiation center above mean sea level (Meters):	368	368
Height of radiation center above average terrain (Meters):	117	117

Antenna structure registration number: 1045333

Overall height of antenna structure above ground (including obstruction lighting if any) see the registration for this antenna structure.

Special operating conditions or restrictions:

1 ********* This is a Section 73.215 contour protection grant **********
********** as requested by this applicant **********

2 Program tests for WESL will not commence with the facilities authorized by this construction permit until program tests for WGOG, Walhalla, South Carolina (Facility ID No.: 2462) commence with the facilities authorized by Construction Permit BPH-20080624ABW. Furthermore, a license will not be granted to WESL to cover the facilities authorized by this construction permit until a license is granted to WGOG to cover the facilities authorized by Construction Permit BPH-20080624ABW.

Special operating conditions or restrictions:

3 FAA INTERFERENCE CONDITION:
Upon receipt of notification from the Commission that harmful interference is being caused by the operation of the permittee's/licensee's transmitter, the permittee's/licensee's shall either immediately reduce the power to the point of no interference, cease operation, or take such immediate corrective action as is necessary to eliminate the harmful interference. This condition expires after one year of interference-free operation.

4 The permittee/licensee in coordination with other users of the site must reduce power or cease operation as necessary to protect persons having access to the site, tower or antenna from radiofrequency electromagnetic fields in excess of FCC guidelines.

*** END OF AUTHORIZATION ***
