

United States of America
FEDERAL COMMUNICATIONS COMMISSION
FM BROADCAST STATION CONSTRUCTION PERMIT

Authorizing Official:

Official Mailing Address:

TEMPLE UNIVERSITY OF THE COMMONWEALTH SYSTEM
1509 CECIL B. MOORE AVENUE
WRTI/THIRD FLOOR
PHILADELPHIA PA 19121

Mary Houser
Supr Applications Examiner
Audio Division
Media Bureau

Facility ID: 65176

Call Sign: WRTQ

Permit File Number: BMPED-19940725JC

Grant Date:

This permit expires 3:00 a.m.
local time, 0 months after the
grant date specified above.

This Permit Modifies Permit No.: BPED-19900109MD

Subject to the provisions of the Communications Act of 1934, as amended, subsequent acts and treaties, and all regulations heretofore or hereafter made by this Commission, and further subject to the conditions set forth in this permit, the permittee is hereby authorized to construct the radio transmitting apparatus herein described. Installation and adjustment of equipment not specifically set forth herein shall be in accordance with representations contained in the permittee's application for construction permit except for such modifications as are presently permitted, without application, by the Commission's Rules.

Commission rules which became effective on February 16, 1999, have a bearing on this construction permit. See Report & Order, Streamlining of Mass Media Applications, MM Docket No. 98-43, 13 FCC RCD 23056, Para. 77-90 (November 25, 1998); 63 Fed. Reg. 70039 (December 18, 1998). Pursuant to these rules, this construction permit will be subject to automatic forfeiture unless construction is complete and an application for license to cover is filed prior to expiration. See Section 73.3598.

Equipment and program tests shall be conducted only pursuant to Sections 73.1610 and 73.1620 of the Commission's Rules.

Callsign: WRTQ

Permit No.: BMPED-19940725JC

Name of Permittee: TEMPLE UNIVERSITY OF THE COMMONWEALTH SYSTEM OF HIGHER ED

Station Location: NJ-OCEAN CITY

Frequency (MHz): 91.3

Channel: 217

Class: B1

Hours of Operation: Unlimited

Transmitter: Type Accepted. See Sections 73.1660, 73.1665 and 73.1670 of the Commission's Rules.

Transmitter output power: As required to achieve authorized ERP.

Antenna type: Directional

Antenna Coordinates: North Latitude: 39 deg 19 min 15 sec

West Longitude: 74 deg 46 min 17 sec

	Horizontally Polarized Antenna	Vertically Polarized Antenna
Effective radiated power in the Horizontal Plane (kW):	.82	10.5
Height of radiation center above ground (Meters):	122	122
Height of radiation center above mean sea level (Meters):	129	129
Height of radiation center above average terrain (Meters):	120	120

Antenna structure registration number: Not Required

Overall height of antenna structure above ground: 152 Meters

Obstruction marking and lighting specifications for antenna structure:

It is to be expressly understood that the issuance of these specifications is in no way to be considered as precluding additional or modified marking or lighting as may hereafter be required under the provisions of Section 303(q) of the Communications Act of 1934, as amended.

None Required

Special operating conditions or restrictions:

- 1 BEFORE PROGRAM TESTS ARE AUTHORIZED, permittee shall submit the results of a complete proof-of-performance to establish the horizontal plane radiation patterns for both the horizontally and vertically polarized radiation components. This proof-of-performance may be accomplished using the complete full size antenna, or individual bays therefrom, mounted on a supporting structure of identical dimensions and configuration as the proposed structure, including all braces, ladders, conduits, coaxial lines, and other appurtenances; or using a carefully manufactured scale model of the entire antenna, or individual bays therefrom, mounted on an equally scaled model of the proposed supporting structure, including all appurtenances. Engineering exhibits should include a description of the antenna testing facilities and equipment employed, including appropriate photographs or sketches and a description of the testing procedures, including scale factor, measurements frequency, and equipment calibration.

- 2 BEFORE PROGRAM TESTS ARE AUTHORIZED, permittee shall submit an affidavit from a licensed surveyor to establish that the directional antenna has been oriented at the proper azimuth.

Special operating conditions or restrictions:

- 3 BEFORE PROGRAM TESTS ARE AUTHORIZED, permittee shall submit an affidavit that the installation of the directional antenna system was overseen by a qualified engineer. This affidavit shall include a certification by the engineer that the antenna was installed pursuant to the manufacturer's instructions and the qualifications of the certifying engineer.

The relative field strength of neither the measured horizontally nor vertically polarized radiation component shall exceed at any azimuth the value indicated on the composite radiation pattern authorized by this construction permit.

A relative field strength of 1.0 on the composite radiation pattern herein authorized corresponds to the following effective radiated power:

10.5 kilowatts

Principal minima and their associated field strength limits:

165 degrees True: 3.55 kilowatts
210 degrees True: 0.825 kilowatt
260-296 degrees True: 2.60 kilowatts
355-5 degrees True: 6.70 kilowatts

In addition, the horizontal ERP shall not exceed 0.825 kilowatt (nondirectional) along any azimuth.

Further modifications to the facilities of WLFR, Pomona, NJ will not be construed as a per se modification of construction permit BPED-900109MD. (See "Educational Information Corporation", 6 FCC Rcd 2207(1991)).

Waiver of 47 C.F.R. Section 73.1125 to allow the operation of the station as a satellite operation of WRTI(FM), PHILADELPHIA, PA IS GRANTED subject to the following conditions:

1. That Temple install a toll-free telephone line from Ocean City to the WRTI(FM) studio in Philadelphia.
2. That Temple conduct regular meetings with Ocean City community leaders.
3. As a result of these meetings, Temple must develop local programming for Ocean City and document the specific nature of this programming in the station's public inspection file. See 47 C.F.R. Section 73.3527(a)(7).

*** END OF AUTHORIZATION ***
