Dear Licensee:

This refers to the above mentioned application dated July 14, 2017, requesting special temporary authority to operate at reduced effective radiated power (ERP). You indicate that on June 21, 2017, the Station experienced the failure of both of its Inductive Output Tubes of the main transmitter. As a result of the failure of both high power amplifier cabinets, the Station currently is relying on a 1,000 Watt backup transmitter, which allows the Station to operate at approximately 3% of authorized power.

In light of the above, special temporary authority is GRANTED pursuant to Sections 73.1560(d) and 73.1635 of the Commission's Rules. This authorization expires on February 7, 2018.

We wish to point out that an extension of this request must include detailed reasons and a description of efforts being taken to return the station to full power operation.

Sincerely,

A handwritten signature in blue ink that reads "Kevin R. Harding". The signature is fluid and cursive, with a long horizontal stroke at the end.

Kevin R. Harding
