Dear Licensee:

This refers to the above mentioned application dated February 14, 2018, requesting special temporary authority to operate at reduced effective radiated power (ERP). You indicate that the Station has been forced to operate at reduced power since February 4, 2018 and must operate at reduced power until its current transmitter is removed, its post-Broadcast Incentive Auction transition transmitter is installed and operational. The Station's reduced effective radiated power is 147 kilowatts (kW) with a 6.3 kW transmitter power output.

In light of the above, special temporary authority is GRANTED pursuant to Sections 73.1560(d) and 73.1635 of the Commission's Rules. This authorization expires on August 23, 2018.

We wish to point out that an extension of this request must include detailed reasons and a description of efforts being taken to return the station to full power operation.

Sincerely,

A handwritten signature in blue ink that reads "Kevin R. Harding". The signature is fluid and cursive, with the first letters of each word being capitalized.

Kevin R. Harding
Associate Chief
