Re: WBUY-TV  
0000042196  
Holly Springs, MS  
Fac Id: 60830

Dear Licensee:

This refers to the above mentioned application dated February 14, 2018 requesting Special Temporary Authority ("STA"). You indicate it is proposed to mount a temporary RFS directional, horizontally-polarized wideband panel antenna at the 122-meter level of the existing 365.4-meter tower on which the present WBUY-DT antenna is mounted. The proposed effective radiated power for the facility is 200 kW. You mentioned that the service contour for the proposed temporary facility will lie completely within that of the present main WBUY-DT facility.

You also indicate that the licensee is filing this request for STA to ensure authority to continue to operate at variance under the parameters indicated above.

In light of the above, special temporary authority is GRANTED pursuant to Sections 73.1615 and 73.1635 of the Commission's Rules. This authorization expires on August 23, 2018.

We wish to point out that an extension of this request must include detailed reasons and a description of efforts being taken to return the station to full power operation.

Sincerely,

A handwritten signature in blue ink that reads "Kevin R. Harding". The signature is fluid and cursive, with the first letters of the first and last names being capitalized and prominent.

Kevin R. Harding
