Re: WNBC(TV)
0000053022
New York, NY
Fac Id: 47535

Dear Licensee:

This refers to the above-mentioned application dated April 19, 2018, requesting special temporary authority to operate at reduced effective radiated power (ERP) utilizing a non-directional antenna installed at One World Trade Center ("1WTC") at 530.4 meters AMSL with an effective radiated power of 340 kW. You indicate that the purpose of the instant request is to seek special temporary authority for WNBC to operate with the same facilities specified in the WNJU Upper Antenna STA. You mentioned that the plan is for WNBC and WNJU to relocate to the lower antenna at 1WTC to accommodate the addition of co-tenants on the master antenna system sometime in 2018. Accordingly, it is requested that WNBC may continue to serve its viewers while it coordinates with the co-tenants of the master antenna system at 1WTC during this post-auction repack transition period.

In light of the above, special temporary authority is GRANTED pursuant to Sections 73.1560(d) and 73.1635 of the Commission's Rules. This authorization expires on November 11, 2018.

We wish to point out that an extension of this request must include detailed reasons and a description of efforts being taken to return the station to full power operation.

Sincerely,

A handwritten signature in blue ink that reads "Kevin R. Harding".
