Dubuque, IA
Fac Id: 17625

Dear Licensee:

This refers to the above-mentioned application dated October 5, 2018, requesting authority to continue to operate at variance. You indicate that the KFXB-TV STA facility will operate on channel 43 with a directional antenna side mounted at a height of 175 meters (575 feet) above ground level on KFXB-TV's current tower. There will be no change in the overall structure height of the existing tower (ASRN- 1055265). You mentioned that the proposed STA antenna system has been designed such that there will be no extension of the predicted noise-limited service contour of the STA facility beyond that of the main facility.

In light of the above, special temporary authority is GRANTED pursuant to Sections 73.1615 and 73.1635 of the Commission's Rules. This authorization expires on April 18, 2019.

Once again, we wish to point out that any request for further extension of this authority must include your reasons for extension and a detailed description of steps being taken to return the station to a fully operational facility.

Sincerely,

A handwritten signature in blue ink, reading "Kevin R. Harding", is positioned above the typed name and title.
