Fac Id: 37105

Dear Licensee:

This is in response to your request dated October 16, 2018, requesting further extension of your authority to continue to operate at variance. This request for special temporary authority proposes continuation of operation on channel 21 from a different site with a maximum effective radiated power of 2.1 kW at a center of radiation of 777.2 meters above mean sea level also using a directional antenna.

Upon review of your extension request, it is evident your efforts are directed toward enhancing the operating efficiency of KWHM. Accordingly, pursuant to sections 73.1560 (d) and 73.1635 of the commission's Rules special temporary authority to operate at reduced power is **EXTENDED until April 18, 2019.**

Once again, we wish to point out that any request for further extension of this authority must include your reasons for extension and a detailed description of steps being taken to return the station to a fully operational facility.

Sincerely,

A handwritten signature in blue ink, reading "Kevin R. Harding", is written over the typed name.

Kevin R. Harding
