Re: KTVD
0000063325
Denver, CO
Fac Id: 68581

Dear Licensee:

This refers to the above-mentioned application dated November 5, 2018, requesting special temporary authority to operate at reduced effective radiated power (ERP). You indicate that in order to conduct services for the required combiner, the KTVD facility must split its transmitter cabinets which will result in a maximum TPO of only 20.0 kW on its pretransition channel (19). Based on the maximum available TPO of 20 kW, the proposed STA will be able to operate with an ERP of 515 kW. You also mentioned that the proposed temporary operation of the KTVD-DT Channel 19 facility will produce a F(50,90) 48.0 dBuV/m principal community contour which completely encompasses the community of Denver, CO.

In light of the above, special temporary authority is GRANTED pursuant to Sections 73.1560(d) and 73.1635 of the Commission's Rules. This authorization expires on **May 7, 2019**.

Sincerely,

A handwritten signature in blue ink that reads "Kevin R. Harding".
