New York, NY
Fac Id: 22206

Dear Licensee:

This refers to your request dated January 30, 2019, requesting special temporary authority (STA) to operate at variance. You indicate that the purpose of this STA application is to operate the WNYW facility (pre-repack channel 44) on One World Trade Building PEP 40 antenna. You mentioned that the PEP 40 antenna is a back-up to the current STA operation on the PEP 96 at OWT and will serve as the main antenna during the construction/installation of the post-repack combiner.

In light of the above, special temporary authority is **GRANTED** pursuant to Sections 73.1560(d) and 73.1635 of the Commission's Rules. This authorization expires on **September 4, 2019**.

We wish to point out that an extension of this request must include detailed reasons and a description of efforts being taken to return the station to full power operation.

Sincerely,

A handwritten signature in blue ink that reads "Kevin R. Harding".
