Dear Licensee:

This refers to your request filed on April 25, 2019 for special temporary authority (STA) to operate at reduce power. You indicate that All UHF broadcasters co-located at the One World Trade Center ("1WTC") broadcast facility must share one combiner system while repack modifications are performed on the second combiner system. You mentioned that due to power handling capabilities of the combiner system to be shared, it is necessary for all UHF broadcasters to operate at reduced power during the repack transition period.

In light of the above, special temporary authority is **GRANTED** pursuant to Sections 73.1560(d) and 73.1635 of the Commission's Rules. This authorization expires on **August 2, 2019**.

Sincerely,

A handwritten signature in black ink, reading "Kevin R. Harding", is written over a horizontal line.

Kevin R. Harding
