Fac Id: 48481

Dear Licensee:

This is in response to the above application filed on July 1, 2019, for special temporary authority (STA) to operate at variance. You mentioned that the station will not be able to construct the post repack, full-power facility by the August 2019 Phase 4 transition deadline due to state procurement delays. Therefore, NJPBA is requesting Special Temporary Authority (STA) to operate a low power facility on its repacked channel 23 in order to meet the August 2019 Phase 4 transition deadline. You state that the low power facility will be identical to that authorized in the WNJS post repack construction permit with the exception of the transmitter.

In light of the above, special temporary authority is GRANTED pursuant to Sections 73.1560(d) and 73.1635 of the Commission's Rules. This authorization expires on **January 11, 2020**.

Sincerely,

A handwritten signature in blue ink that reads "Kevin R. Harding".
