Dear Licensee:

This is in response to the above application filed on August 7, 2019, to operate at reduced effective radiated power (ERP). You indicate that KDMI experienced equipment failure (a transmission line burnout) on July 7, 2019, and is currently operating at less than 80% of authorized power. You mentioned that the licensee is currently working on the repair until such time as the station can be returned to full authorized power.

In light of the above, special temporary authority is **GRANTED** pursuant to Sections 73.1560(d) and 73.1635 of the Commission's Rules. This authorization expires on **February 13, 2020**.

We wish to point out that an extension of this request must include detailed reasons and a description of efforts being taken to return the station to full power operation.

Sincerely,

A handwritten signature in blue ink that reads "Kevin R. Harding". The signature is stylized with a large, sweeping "K" and a long, horizontal stroke at the end.
