Dear Licensee:

This refers to the above mentioned application dated April 12, 2016 requesting special temporary authority to operate at reduced effective radiated power (ERP). You indicate that around March 25, 2016, three of fourteen amplifiers in the main transmitter failed, resulting in reduced power operation to slightly over 50%.

You state that reduced power operations will continue to be necessary while the applicant is trying to repair or replace the equipment and restore full power operation.

In light of the above, special temporary authority is GRANTED pursuant to Sections 73.1560(d) and 73.1635 of the Commission's Rules. This authorization expires on October 13, 2016.

We wish to point out that an extension of this request must include detailed reasons and a description of efforts being taken to return the station to full power operation.

Sincerely,

A handwritten signature in blue ink that reads "Kevin R. Harding".

Kevin R. Harding
