Re: KNAT-TV
0000019280
Albuquerque, NM
Fac Id: 993

Dear Licensee:

This refers to the above mentioned application dated December 22, 2016 requesting special temporary authority to operate at reduced effective radiated power (ERP). You indicate that the KNAT-TV main facility recently experienced a transmission line failure, thus necessitating temporary operation while the line is repaired. You mentioned that this STA request proposes operation with an effective radiated power of 9.8 kW and an omnidirectional low-power antenna mounted at the 18-meter level of the KNAT-TV tower. Therefore, no change in site location is proposed herein.

In light of the above, special temporary authority is GRANTED pursuant to Sections 73.1560(d) and 73.1635 of the Commission's Rules. This authorization expires on July 10, 2017.

We wish to point out that an extension of this request must include detailed reasons and a description of efforts being taken to return the station to full power operation.

Sincerely,

A handwritten signature in blue ink that reads "Kevin R. Harding".
