Dear Licensee:

This refers to the above mentioned application dated March 22, 2017 requesting Special Temporary Authority ("STA") to permit operation of the WHIZ-TV main facility with its installed non-directional antenna. You mentioned that due to a filing error, the WHIZ-TV facility became licensed with a directional transmitting antenna in 2008 when it was actually using a non-directional transmitting antenna. The station has operated with 620 kW using a non-directional antenna since its original construction in 2007.

In light of the above, special temporary authority is GRANTED pursuant to Sections 73.1615 and 73.1635 of the Commission's Rules. This authorization expires on September 27, 2017.

We wish to point out that an extension of this request must include detailed reasons and a description of efforts being taken to return the station to full power operation.

Sincerely,

A handwritten signature in blue ink that reads "Kevin R. Harding".
