Dear Licensee:

This refers to the above mentioned application dated May 19, 2017 requesting special temporary authority to operate at reduced effective radiated power (ERP). You indicate that the transmitter for the KMIZ(TV) has failed and can only be operated at approximately 60% power. This produces an effective radiated power of approximately 72 kW.

In light of the above, special temporary authority is GRANTED pursuant to Sections 73.1560(d) and 73.1635 of the Commission's Rules. This authorization expires on December 2, 2017.

We wish to point out that an extension of this request must include detailed reasons and a description of efforts being taken to return the station to full power operation.

Sincerely,

A handwritten signature in blue ink that reads "Kevin R. Harding". The signature is fluid and cursive.
