Re: WSFJ-TV
0000024906
Newark, OH
Fac Id: 11118

Dear Licensee:

This refers to the above mentioned application dated June 12, 2017, requesting special temporary authority to operate at reduced effective radiated power (ERP). You indicate that on May 31, 2017, WSFJ-TV experienced failure of the anode cooling ring because the de-ionized water used for cooling is corrosive. The station has been operating at about 50% of its authorized power.

In light of the above, special temporary authority is GRANTED pursuant to Sections 73.1560(d) and 73.1635 of the Commission's Rules. This authorization expires on December 15, 2017.

We wish to point out that an extension of this request must include detailed reasons and a description of efforts being taken to return the station to full power operation.

Sincerely,

A handwritten signature in blue ink, reading "Kevin R. Harding", is positioned above the typed name and title.
