Dear Licensee:

This refers to the above mentioned application dated July 7, 2017, requesting special temporary authority to operate at reduced effective radiated power (ERP). You indicate that On July 3, 2017, the Station tested its main antenna and determined that the antenna has two bad sections. As a result, the station is currently operating at 30% of authorized power.

In light of the above, special temporary authority is GRANTED pursuant to Sections 73.1560(d) and 73.1635 of the Commission's Rules. This authorization expires on January 13, 2018.

We wish to point out that an extension of this request must include detailed reasons and a description of efforts being taken to return the station to full power operation.

Sincerely,

A handwritten signature in blue ink that reads "Kevin R. Harding". The signature is fluid and cursive, with the first letters of each word being capitalized and prominent.
