Re: KIDK
0000029850
Idaho Falls, ID
Fac Id: 56028

Dear Licensee:

This refers to the above mentioned application dated September 13, 2017, requesting special temporary authority to operate at reduced effective radiated power (ERP). You indicate that due to the recent failure of power supplies in the KIDK transmitter, it is necessary for the station to operate with its transmitter power output (TPO) reduced to approximately 4 kW. With the present reduced TPO, the KIDK facility will operate with an estimated maximum directional ERP of 105 kW.

In light of the above, special temporary authority is GRANTED pursuant to Sections 73.1560(d) and 73.1635 of the Commission's Rules. This authorization expires on March 14, 2018.

We wish to point out that an extension of this request must include detailed reasons and a description of efforts being taken to return the station to full power operation.

Sincerely,

A handwritten signature in blue ink that reads "Kevin R. Harding".
