Dear Licensee:

This refers to the above mentioned application dated March 2, 2018, requesting special temporary authority to operate at reduced effective radiated power (ERP). You indicate that On February 22, 2018, KPJR-TV experienced equipment failure to its transmitter. The station has been operating below the 80% minimum transmitter output power limits since then. You mentioned that the station requests to operate below (at 50%) the minimum power limits until it either returns to full power or surrenders its spectrum pursuant to the results of the Incentive Auction.

In light of the above, special temporary authority is granted pursuant to sections 73.1560(d) and 73.1635 of the Commission's rules. This authorization expires on September 16, 2018.

We wish to point out that an extension of this request must include detailed reasons and a description of efforts being taken to return the station to full power operation.

Sincerely,

A handwritten signature in blue ink that reads "Kevin R. Harding".
