Re: WPXN-TV  
0000052936  
New York, NY  
Fac Id: 73356

Dear Licensee:

This refers to the above-mentioned application dated April 18, 2018, requesting special temporary authority to operate at reduced effective radiated power (ERP). You indicate that television station WNYW (FOX), plans to relocate its broadcast facility to the One World Trade Building ("1WTC"). The relocation requires WNYW to be combined into 1WTC's existing master antenna system until a second antenna installation is complete and operational. To accommodate this overall power increase, all the broadcasters that are co-located on the tower including WPXN-TV combined into the master antenna system will be required to operate at reduced power. Therefore, ION respectfully requests STA for WPXN-TV to operate with an effective radiated power (ERP) of 60 kW.

In light of the above, special temporary authority is GRANTED pursuant to Sections 73.1560(d) and 73.1635 of the Commission's Rules. This authorization expires on November 11, 2018.

We wish to point out that an extension of this request must include detailed reasons and a description of efforts being taken to return the station to full power operation.

Sincerely,

A handwritten signature in blue ink that reads "Kevin R. Harding". The signature is fluid and cursive, with the first letters of the first and last names being capitalized and prominent.

Kevin R. Harding
