Dear Licensee:

This refers to the above-mentioned application dated June 5, 2018, requesting special temporary authority to operate at reduced effective radiated power (ERP). You indicate that in order to comply with a new channel assignment issued by the FCC in Phase One of the Repack, the construction phase of this move will require KSL-TV to cease operation on the current antenna while the new one is installed. You mentioned that to continue operation during this time, KSL-TV will need to operate on a standby antenna on its current channel at reduced power for several months while the new antenna and transmission facilities are constructed.

In light of the above, special temporary authority is GRANTED pursuant to Sections 73.1560(d) and 73.1635 of the Commission's Rules. This authorization expires on December 7, 2018.

Sincerely,

A handwritten signature in blue ink that reads "Kevin R. Harding".
