Dear Licensee:

This refers to the above-mentioned application dated June 5, 2018, requesting special temporary authority to operate at reduced effective radiated power (ERP). You indicate that it is proposed to decrease the effective radiated power of the station to 425 kW from 851 kW, due to equipment failure. You mentioned that no change in transmitter site location, antenna radiation pattern or antenna height is proposed herein.

In light of the above, special temporary authority is GRANTED pursuant to Sections 73.1560(d) and 73.1635 of the Commission's Rules. This authorization expires on December 7, 2018.

We wish to point out that an extension of this request must include detailed reasons and a description of efforts being taken to return the station to full power operation.

Sincerely,

A handwritten signature in blue ink that reads "Kevin R. Harding".

Kevin R. Harding
