Facility ID Number: 60341

Dear Licensee:

This refers to your request dated August 14, 2018, for special temporary authority (STA) to operate at reduced effective radiated power (ERP). You point out that the Station is currently operating by Silent STA (initially granted October 20, 2017 and extended April 26, 2018) following operations that were interrupted by Hurricane Maria on September 20, 2017. You mentioned that because the Station is currently listed as "Licensed and Silent" in the LMS database and because large portions of the DTS system are in fact back in service, the Station is seeking to update its operational status via the filing of a reduced power STA.

In light of the above, special temporary authority pursuant to Sections 73.1560(d) and 73.1635 of the Commission's Rules until February 15, 2019 IS GRANTED.

Please be advised that any request for extension of this authority must include detailed reasons for extension and a description of steps being taken to return the station to a fully operational facility.

Sincerely,

A handwritten signature in blue ink that reads "Kevin R. Harding".
