Fac Id: 9754

Dear Licensee:

This refers to the above-mentioned application dated September 27, 2018 requesting further extension of your authority to continue to operate at reduced power. You mentioned that KNCT is experiencing technical issues with its TV transmitter. The station can only operate at 50% power. This transmitter must be replaced when the station builds its repacked facility, therefore the station will continue to operate at reduced power until it constructs its repack facility.

Upon review of your extension request, it is evident your efforts are directed toward enhancing the operating efficiency of KNCT. Accordingly, pursuant to sections 73.1560 (d) and 73.1635 of the commission's Rules special temporary authority to operate at reduced power is EXTENDED until **April 2, 2019**.

Once again, we wish to point out that any request for further extension of this authority must include your reasons for extension and a detailed description of steps being taken to return the station to a fully operational facility.

Sincerely,

A handwritten signature in blue ink, reading "Kevin R. Harding", is positioned above the typed name and title.

Kevin R. Harding
