Dear Licensee:

This refers to the above-mentioned application dated October 9, 2018, requesting special temporary authority to operate at reduced effective radiated power (ERP). You indicate that the station requests Special Temporary Authority to operate at a reduced power from an antenna located lower on the same tower that holds its existing, licensed facility. This will serve as the station's "interim facility". You mentioned that the station is building out its assigned post-transition facility utilizing the existing tower by replacing its pre-auction antenna with a new antenna to operate on channel 18. The station will meet its deadline to cease operations on its pre-auction channel 48 at which time it will commence operating on its post-transition channel 18.

In light of the above, special temporary authority is GRANTED pursuant to Sections 73.1560(d) and 73.1635 of the Commission's Rules. This authorization expires on **April 18, 2019**.

Sincerely,

A handwritten signature in blue ink that reads "Kevin R. Harding".
