Dear Licensee:

This refers to the above-mentioned application dated October 18, 2018, requesting special temporary authority to operate at reduced effective radiated power (ERP). You indicate that the Station suffered a burnout in mid-September that has caused a reduction in power. You mentioned that the Station has been operating at 50% (-3dB) from its licensed parameters.

In light of the above, special temporary authority is GRANTED pursuant to Sections 73.1560(d) and 73.1635 of the Commission's Rules. This authorization expires on **April 24, 2019**.

We wish to point out that an extension of this request must include detailed reasons and a description of efforts being taken to return the station to full power operation.

Sincerely,

A handwritten signature in blue ink that reads "Kevin R. Harding".
