Re: KVEA
0000063605
Corona, CA
Facility ID Number: 19783

Dear Licensee:

This refers to the above-mentioned application dated November 15, 2018, requesting special temporary authority (STA) to operate at variance. You indicate that the purpose of this application is to request engineering special temporary authority to construct and operate an interim broadcast facility for KVEA. You mentioned that tower work related to the incentive auction repack for other stations at KVEA's licensed channel 39 facility's site will limit KVEA's ability to broadcast from the site. This interim engineering STA is required to allow KVEA to protect tower workers without slowing the repack work of other stations while continuing to provide service to the public until it can begin transmitting with the post-repack facilities. You also mentioned that this interim facility will only be used when the main KVEA facility has to be shut down to allow tower work.

In light of the above, special temporary authority is GRANTED pursuant to Sections 73.1560(d) and 73.1635 of the Commission's Rules. This authorization expires on **May 27, 2019**.

Sincerely,

A handwritten signature in blue ink, reading "Kevin R. Harding", is positioned above the printed name and title.
