Pine Bluff, AR
Facility Number: 41212

Dear Licensee:

This refers to your request dated November 21, 2018, requesting further extension of your authority to continue to operate at a slight variance from its license facility. You indicate that the interim antenna that the station was operating on was severely damaged by ice. Mission immediately obtained a Dielectric model TFU-16WB-1-R C160 interim replacement broadband antenna from one of its earlier-phase sites. You mentioned that the purpose of this emergency STA application is to allow the KASN-DT facility to remain on the air at reduced power on its post-transition channel (34) using the above-mentioned antenna, while the new post-transition main antenna is installed.

In light of the above, special temporary authority is **GRANTED** pursuant to Sections 73.1560(d) and 73.1635 of the Commission's Rules. This authorization expires on **July 3, 2019**.

Once again, we wish to point out that any request for further extension of this authority must include your reasons for extension and a detailed description of steps being taken to return the station to a fully operational facility.

Sincerely,
