Dear Licensee:

This refers to the above-mentioned application dated January 8, 2019, requesting special temporary authority to operate at reduced effective radiated power (ERP). You indicate that WIYC's transmitter is operating at reduced power due to the failure of several solid-state final power amplifier modules. Therefore, *Woods* requests an STA to operate WIYC with parameters at variance at 15 kW ERP, which is 30 percent of its licensed ERP.

In light of the above, special temporary authority is GRANTED pursuant to Sections 73.1560(d) and 73.1635 of the Commission's Rules. This authorization expires on **September 4, 2019**.

We wish to point out that an extension of this request must include detailed reasons and a description of efforts being taken to return the station to full power operation.

Sincerely,

A handwritten signature in blue ink that reads "Kevin R. Harding". The signature is fluid and cursive, with a large loop at the end.
