Dear Licensee:

This refers to your request dated February 11, 2019, requesting special temporary authority (STA) to operate at variance. You indicate that the purpose of this STA application is to allow the WHDF facility to temporarily operate with alternate parameters on its pre-transition channel (14) using a side-mounted directional interim antenna (ERI ATW2G150-HSS-14), while the new post-transition main antenna is installed. You mentioned that the proposed WHDF interim facility at reduced parameters will completely encompass its community of license with the F(50,90) 48.0 dBu principal community contour and will not exceed its licensed F(50,90) 38.72 dBu pre-transition protected noise limited contour in any azimuthal direction.

In light of the above, special temporary authority is GRANTED pursuant to Sections 73.1560(d) and 73.1635 of the Commission's Rules. This authorization expires on **September 6, 2019**.

We wish to point out that an extension of this request must include detailed reasons and a description of efforts being taken to return the station to full power operation.

Sincerely,

Kevin R. Harding
